Archaeology Resources for High School | Southern Adventist ...
Archaeology, also spelled archeology, the scientific study of the material remains of past human life and activities. These include human artifacts from the very earliest stone tools to the man-made objects that are buried or thrown away in the present day: everything made by human beings—from simple tools to complex machines, from the earliest houses and temples and tombs to palaces ...

Wheatley and Mark Gillings Spatial Technology and Archaeology: the Archaeological Applications of GIS. 1.1. 12BSo what can I do with GIS? GIS stands for Geographical Information System and covers a variety of software packages which use maps as the primary means of displaying data. Simply, a GIS package operates a bit like a

QGIS f or Archaeologists Get ting Started - BAJR
The Practical Archaeologist is an introduction to archaeology with a user-oriented approach. Researchers of all ages will learn how archaeologists work and how they interpret the evidence they discover. More than 200 full-color and black-and-white photographs, maps, drawings, and charts enhance the text throughout.

The Practical Archaeologist: How We Know What We Know ...
The geophysical methods most commonly applied to archaeology are magnetometers, electrical resistance meters, ground-penetrating radar (GPR) and electromagnetic (EM) conductivity. These methods provide excellent resolution of many types of archaeological features, and are capable of high sample density surveys of very large areas and of operating under a wide range of conditions.
