While the text of *The Origin of Species* did leave room for religious theology, Darwin's overall commitment to scientific rationale rather than theological reasoning pitted him against religious doctrine. Darwin's text was controversial when it was published, and it remains controversial today.

The Origin of Species: Overview | SparkNotes

Worldwide commemorations of the 150th anniversary of the publication of *On the Origin of Species* and the bicentenary of Darwin's birth were scheduled for 2009. They celebrated the ideas which "over the last 150 years have revolutionised our understanding of nature and our place within it".
